THIRD FIERCE FIGHT

Forty Spaniards Killed and Eighteen Captured.

ONE AMERICAN WOUNDED

The Enemy's Force of Over Four Hundred Repulsed.

INSURGENTS COME TO OUR AID.

Colonel Laborda's Cubans Lose Two Men In the Attack-Return to Camp Unmolested-Vernyins' Dynamite Guns Destroy Santiago de Cuba's Forts.

KINGSTON, Jamaica, June 16.-The United States marines, under Lieutenant Colonel Robert W. Huntington, made their first aggressive movement against the Spanish guerrillas yesterday and completely routed the enemy. The force of marines was under Cap-

tain Elliott; the co-operating Cubans were under Colonel Laborda. The com-bined forces razed a Spanish camp about five miles from the American position, destroyed the only well in the vicinity and killed about 40 Spaniards.

One American marine was slightly wounded. Two Cubans were killed and four wounded. It is impossible to estimate the number of Spaniards engaged owing to their guerrilla methods of fighting, but it is believed there were at least 400.

The marines behaved splendidly, their marksmanship being excellent even under the severe fire of the enemy.

The captured camp lay about five miles southeast of the rifle pits of the marines and was an important base for the enemy, as it contained the only well within six or seven miles. Lieutenant Colonel Huntington decided on the attack early in the day, and about 3 o'clock the force started across the mountain. The march up and down the steep hillsides under the glaring tropical sun was a severe test of endurance for the ma-rines, and before the battle ground was reached 22 men had received medical attention. All were able, however, to reach the position before the fighting

The marines were compelled to march in single file, following the mountain trail. Meanwhile the Cubans darted backward and forward, to right and left, on the scout. It was noon when from a hilltop the Americans caught sight of the Spanish camp lying on a ridge below them. It consisted of one large house-the officers' quarters-surrounded by numerous "shacks" and huts, all clustering about the precious well.

The Americans began a cautious advance and were within 200 yards of the enemy beforé the crack of a rifle from the Spanish lines announced that the Spaniards had discovered them.

The troops quickly moved into line of battle, with the Cubans on the left flank by the line of formation effected. The enemy's bullets were whizzing viciously over the Americans, but the marines settled down to their work as unconcernedly as though at target practice. Very few Spaniards were in sight.

They were lying behind the huts and in the brush, but the puffs of smoke revealed their positions and enabled the Americans to do effective work. For 20 minutes both sides maintained a terrific fire. The Spanish shots were generally wild and spasmodic, while the Americans coolly fired away, aiming carefully and shooting to kill. For the most part our firing was done individually, but at times the officers could direct firing by squads, always with telling effect.

It was beginning to look as though a bayonet charge down the slope would be necessary to dislodge the enemy, when suddenly the latter began to break for a thicket 100 yards farther on. Little groups could be seen fleeing from the camp, separating, darting through the brush and zigzagging to escape the bullets.

It was then the American fire became

most deadly. Man after man could be seen to fall in a vain rush for shelter, and the fire from the Spanish became scattering and almost ceased.

Two Cubans lay dead and four wounded, and Private Walker of Company D had to limp to the rear with a slight wound in his ankle.

The easy victory put the command in high spirits. The little black Cuban warriors waved their machetes and howled curses at the Spanish in savage fashion. Their firing had been wild throughout, but they all displayed the utmost contempt for the Spanish bullets, apparently being absolutely with-

out fear.
As the enemy began breaking from the camp the Dolphin, which lay out at cruiser in actual warfare. The frightful sea, was signaled and began pitching execution done by those three shots will shells toward the thicket for which the be historic. Spenjards were making. Meanwhile Licutesant Magill was seen coming with 40 men as re-enforcements, and | tack that followed the discovery of the Captein Mahoney was on the way with presence of the Spanish fleet in the har-

the scene the trouble was all over.
As the Spanish retreated the Americans moved slowly forward, firing as they went, and by the time the camp was reached the enemy had all got away, taking their wounded and probably many of their dead. Fifteen bodies were found scattered through the brush, but the Americans were unable to examine the spot where their firing had been most deadly. No time was lost in burning the buildings and filling the well with earth and stones.

The Dolphin landed water and ammunition, as an attack was expected on the return march, but none was made. Evidently the Spaniards were too thoroughly beaten to attempt further fighting. The marines did not reach the American camp until after nightfall, and, as they had been without food since the early morning, they were thoroughly exhausted.

Colonel Huntington believes the destruction of the camp and well will seriously cripple the bushwhucking op-

erations of the enemy.
Off Santiago de Cuba on Monday night the dynamite guns of the Vesuvius were tested with great success. Three shots were fired at the Spanish fortifications, and it is believed great damage was done.

On Tuesday morning the New Orleans shelled and partially destroyed the new emplacement east of Morro castle.

The Spaniards fired some shots at the Vesuvius and one at the New Orleans, which was struck.

SAMPSON'S DISPATCH. Departments Gratified Over the News of Insurgents' Assistance.

WASHINGTON, June 16.-Like the relief of the beleagured at Lucknow came the welcome news to the navy department yesterday afternoon that the little band of American marines who had planted the flag on Crest hill and were defending it night and day against heavy odds were not only safe, but were strongly re-enforced by 1,500 Cubans from the commands of Garcia and Rabbi and were now strong enough to more than hold their own. It was disclosed in a dispatch from Admiral Sampson and brought much relief to naval officials.

The early reports had indicated that the marines were surrounded, and it was feared that they might be compelled to return to the ships before General Shafter's invading army reached there on Friday. The coming of the Cuban forces seems to have been in the nick of time, and naval officials give the fullest credit to the timeliness of this Cuban co-operation.

The admiral's dispatch stated that the condition of the marines was "entirely satisfactory," which assurance, although brief, was enough to relieve officials here of the fears they had entertained. But probably the most significant feature of the admiral's dispatch was the statement that the Cuban general Rabbi had occupied Acerradcos, only eight miles from Santiago and practically a suburb of that Spanish stronghold. It was the execution of a plan arranged in Washington some weeks ago, when two of the staff officers of General Garcia came here to confer with General Miles.

At that time Garcia and Rabbi were at Bayamo, in the western part of Santiago province and more than 100 miles northwest of Santiago de Cuba Λđmiral Sampson's dispatch showed that Rabbi and his force had made a complete circuit of Santiago de Cuba and, coming up to the south of it, has occupied Acerradeos.

This is looked upon as a fine military stroke, for Acerradocos is the port where iron wharfs will afford facilities for unloading the heavy artillery carried by General Shafter's invading ex-

The news also indicated to the authorities here that the Spanish garrison at Santiago has practically retreated inside the city proper, giving up the outlying towns. Admiral Sampson also states that General Garcia is cooperating with the American forces. Whether this means that Garcia himself has arrived from Bayamo is not quite clear, but if he has, the joint forces of Garcia and Rabbi will make 3,000 to 5,000 seasoned Cubans, recently armed with Springfields, as a bushwhacking force to aid the American troops. From sources other than the dispatches of Admiral Sampson the navy department has been informed that 500 Cubans were rendering efficient aid to the marines at Crest hill, Now that Rabbi and Garcia are on the scene this 500 will be swelled to thousands.

The news of the routing with severe losses of the Spanish guerrillas and the capture of their water supply by the marines and Cubans had not been received up to the close of the departments, but it is felt here that it will make the Spaniards very cautious and enable our forces to get much needed In making his march Rabbi has cross-

ed the line of communication between the Spanish commander, General Pando, at Holguin, and the Spanish forces at Santiago de Cuba. This fact makes it clear that Santiago is not likely to get re-enforcements from General Pando. In circling around Santiago to reach Acerradocos, Rabbi, it is believed here, also established it as a fact that the lines of communication and relief to Santiago are intercepted and practically cut off in all directions.

VESUVIUS IN ACTION.

Terrible Havoc Wrought by Her Pneumatte Ouns.

MOLE ST. NICHOLAS, Haiti, June

16.—Three shells, each containing 200 pounds of gun cotton, were fired Tuesday night from the pneumatic guns of the Vesuvius at the hill at the western entrance to Santiago harbor, on which there is a fort.

It was the first test of a dynamite

Guns in that fort had not been silenced when the fleet drew off after the at-

In the intense darkness of Tuesday night the Vesuvius steamed in to close range and let go one of her mysterious missiles. There was no flash, no smoke. There was no noise at first. The pneumatic guns on the little cruiser did their work silently. It was only when they felt the shock that the men on the other warships knew that the Vesuvius was in action.

A few seconds after the gun was fired there was a frightful convulsion on the. land. On the hill, where the Spanish guns had withstood the missiles of the ordinary ships of war, tons of rock and; soil leaped high in air. The land was smitten as by an earthquake.

Terrible echoes rolled around around through the shaken hills and mountains. Sampson's ships, far out at sea, trembled with the awful shock, Dust rose to the clouds and hid the scene of destruction. Then came a long silence; next another frightful upheaval and following it a third so quickly that the results of the work of the two mingled in mid air,

Another stillness and then two shots from a Spanish battery that, after the noise of the gun cotton, sounded like the ... crackle of firecrackers.

The Vesuvius had tested herself. She was found perfect as a destroyer. She proved that no fortification can withstand her terrible missiles. Just what damage she did could not be told from the sea. Whatever was within hundreds of feet of the point of impact

must have gone to destruction. This was the first test of a dynamite eruiser in actual warfare, and naval officers are highly gratified with the results. In acquiring a dynamite cruiser the United States government establishes a precedent, and naval experts in all parts of the world have been

keenly interested in it. Foreign governments watched closely the tests of the Vesuvius when the vessel first went into the water, and no vessel in either the American or Spanish navy has been the object of such studied attention since the present war began. Naval experts have been eager to know how the dynamite cruiser would behave in actual warfare and whether it would prove capable of doing the destructive work its defenders have predieted.

All doubt as to these points has now been dispelled. Admiral Sampson has been apprehensive about the strength of a fort situated on a point high above the sea to the west of the entrance to Santiago harbor. This fort, the American admiral thought, was one of the two not entirely disabled by the bombardment on June 6.

To settle that point and also to give

the dynamite cruiser a fair opportunity to prove its usefulness Admiral Sampson issued orders for the Vesuvius to shell the fort.

It was 11 o'clock when the Vesuvius stole us close to the entrance to the harbor and sent three dynamite shells. one after another, in the direction of the fort. Terrific explosions followed, each shell bursting on impact and playing havoc where it struck. The fort attacked was the most pow-

erful of all guarding the harbor, mounting several modern guns. In the darkness the Americans could not distinguish the point at which the shells struck, but they are certain that the projectiles exploded very near to the fort, if they did not actually hit it. This effective work by the Vesuvius vas followed a few hours later by equal-

ly good work by the New Orleans. Captain Folger of the New Orleans reported to Admiral Sampson early Tuesday night that the Spaniards were emplacing new guns to the eastward of Morro castle, and he was ordered to make an attack on the new defenses at daylight Wednesday morning.

When dawn came, the New Orleans took a position within three-quarters of a mile of the new fortifications and gave the Spaniards the hottest ten minutes they have had since the war began. The range was found at the first shot, and in a minute the crest of the hill was be-

ing swept by a hurricane of shells. In a few seconds the Spanish position was obscured by the smoke from the bursting missiles, but the aim of the New Orleans' gunners was magnificent. Every shell struck the top of the parapet, bursting over its defenders. The battery was silenced in three minutes. but the firing was continued until a signal of recall was holsted on the flagship. The New Orleans was uninjured.

SPAIN FEARS INVASION.

Rumor That Our Fleet May Cross the Atlantic Causes Alarm In Cadiz. CADIZ, via Gibraltar, June 16.-There

is great excitement here owing to fears of the American fleet, coming to Spain. It has been decided to send further re-enforcements to the Balearic islands. the Canaries and Ceuta.

The reserve squadron, consisting of two ironelads, one torpedo boat, one cruiser and two torpedo boat destroyers, sailed at dawn yesterday, but returned in the evening. These mysterious movements are doubtless intended to mislead, and any alleged sailing of the fleet should be received with the

greatest caution. The auxiliary cruiser Ciudad de Cadiz has left here under sealed orders.

From hints gathered in official circles. it is believed the squadron will sail singly or in pairs under sealed orders to meet at a given point, probably on the high seas. Some say the rendezvous is the Saragossa sea, off the Azores, where the vessels will be outside the usual track of shipping and able to wait quietly for their consorts in order to sail together.

Captain Aunon has expressed great annoyance at the continued delays. He declares his intention of reforming that present system at the arsenals and of abolishing the red tape methods hitherto so prevalent. The minister favors such drastic changes that it is uncertain whether the squadron is remodeled yet to his satisfaction.

Senator Aldrich Re-elected.

THE LEITER DEAL.

traseur Will Control All the Wheat King's Holdings. CHICAGO. June 16 .- Arrangements

for the closing of the Leiter deal have been completed. Final papers were placed before Joseph Leiter yesterday, and 7,000,000 bushels of cash wheat were consigned to P. D. Armour, who will henceforth control all the Leiter hold-

Armour has already begun to dispose of his holdings, and unless the coming crop is harvested sooner than anticipated it seems likely that the immense line of wheat in the northwest will be consumed there.

It is stated that Leiter will not lose as much as was generally believed. Armour's assumption of the burden is said to have meant at least \$2,000,000 for Leiter. That much loss would be incurred if the immense line of wheat had to be merchandised by trustees, with the probability of a declining market. The loans made to Leiter by the local banks aggregate nearly \$7,000,000. Each bank was careful to protect itself with wide margins that would insure against loss. Interviews with a number of the bankers interested show that they are all satisfied with the transfer of the deal to Armour.

German Diplomat Assaulted.

LONDON, June 16.-While the first secretary of the German embassy here, Count von Arco-Valley, was emerging from the embassy last evening a stranger fired two shots from a revolver at him. One of the bullets entered the secretary's back. His assailant was arrested after firing at and missing a policeman. The motive which prompted the attempt is not known. The count's wound is not dangerous. His assailant, an Englishman, refuses to furnish any explanation of his conduct.

Papal Nuncio Interviews Giron-Huntington's Landing Was "Satisfactory to Spain"-Carlists Active - Germany and the Philippines.

MADRID, June 16.—Duke Almodovar de Rio, minister of foreign affairs, has ordered Senor du Bosc, former Spanish charge d'affaires at Washington, and Lieutenant Carranza, former Spanish naval attache there, to leave Canada.

The government has authorized Governor General Blanco to entertain proposals for an exchange of Lieutenant Hobson and the other prisoners taken when the American collier Merrimac was sunk off the entrance to the harbor of Santiago de Cuba. The papal nuncio had a long confer-

ence yesterday with Senor Romero Giron, minister of the colonies. It is much commented upon. In the chamber of deputies Duke Al-

modovar de Rio refused to discuss an interpellation by Marquis de Cervera as to America's "infractions of international law." Lieutenant General Correa, minister of war, declared that the government

could have no motive in hiding the truth as to the American landing at Guantanamo. Communication, he said, had been cut between Santiago and Guantanamo, but as soon as dispatches were received they would be published. General Aznar said the news as to

the landing was "very satisfactory for Spain." The chamber adopted a motion presented by the Republicans demanding that the government submit before the

Can't Conquer the Newspapers.

LONDON, June 16 .- The Madrid correspondent of The Standard says:

The Madrid newspapers declare that the idea that the Spaniards favor peace is wrong. On the contrary, they are still resolved to continue the struggle. being convinced that facts are fast proving the Americans powerless to conquer the garrisons in Cuba and Puerto Rico, while they are also menaced with international complications at Manilla."

WILLIAM AND THE PHILIPPINES.

Government Takes No Stock In Stories of German Interference.

WASHINGTON, June 16 .- The constant reports that Germany is on the eve of making a serious issue in the Philippines are unaccountable to officials here who have the most direct and positive information that Germany has never contemplated such a step and is not now moving toward its execution either alone or with other powers This direct information overcomes many circumstantial reports coming from Europe, some asserting that Germany is exchanging secret notes with other powers, others that Admiral Prince Henry and Admiral Diederich are about to intervene at Manilla, others that the German embassy here has made a protest to the state department and others that Emperor William himself is taking a personal interest in resenting the

American occupation of the Philippines There is the highest authority for saying that each one of these reports is groundless, and they are all attributed to a malicious purpose to embitter the feeling between Germany and the United States. In the main these reports have originated outside of Germany. although one army and navy newspaper in Germany took them up and urged the advantage of an active German policy in the Philippines. It is said by persons familiar with the facts that this journal is without official recognition and in no way reflects the attitude of the German government. It is more the organ of the navy and as such shares the usual sentiment among naval classes for an aggressive use of the navy. But this policy, it is said, has never recommended itelf to the German government in the present war.

Germany's Attitude.

LONDON, June 16 .- The Berlin correspondent of The Daily Mail says:

The Berlin press is unanimous in asserting that Germany's attitude in the Philippines is solely one of surveillance of German interests and that the presence of the German fleet at Manilla is a guarantee that if the Philippines are lost to Spain they will not come into the possession of any single power interested in east Asia.

"The Berliner Post says that if the Spanish regime comes to an end intelligent and energetic half breeds, mixed with Chinese and Malays, will be called upon to take part in the destiny of their country or to take it altogether into

Tompkins' New Dry Goods Store, 35 North St.

MID-JUNE - MERCHANDISE!

Geography is the study of the period. War makes strategy familiar Tompkins' New Dry Goods Store in its new location, 35 North street, is the most central, the finest and largest dry goods store in this city. Thus Tompkins' is the strategic point. That fact is quite familiar to some thousands of people in Middletown and vicinity.

The POINT is valueless without the power. Three elements make the power.

First GOODS, second PRICES, third PUBLICITY.

THE GOODS-There is no war scare here. New goods are coming in daily, lots of them, and they go out as fast as they come in. Our city buyer is on the lookout every day for new bargains for Tompkins' Big Store.

THE PRICES-Will this business be here prosperous five years from now? That largely depends on the bargains we give you now. Our business life is vitalized by the advantages we are able to offer you THE PUBLICITY-True news of good goods, at right prices make the Tompkins column good

reading every week. Once again this week will each department arise in its bargain might and prove its bargain power. Once again will the multitude heartily respond to the unstinted bargain richness. Once again will small prices become great by bringing in enormous returns. This week is bargain week par excellence at Tompkins'—the popular shopping point of Middletown.

NEW Hundreds of yards of them. At no DIMITIES, other place are they less than 12%c, many get 15c for the new goods, late printings and prefty ones. Many different patterns. We have never has an offer in wash goods so all around good as this at Tompkins'. They are 10c per yard.

> FORT HAMILTON, L. I., June 15, 1898.

The first three days in Fort Hamilton have passed very pleasantly and the men have every reason to be thankful for the change. We are settling down to the routine life of the post, which is somewhat different from the duty at Camp Black.

There our first call in the morning was at 5:25, with assembly and roll call ave minutes later. Here the morning gun is fired at 5:45, reveille is at 6 o'clock and roll call at 6:05, thus giving the men twenty minutes in which to perform their morning ablutions.

Breakfast call is at 6:20, sick call 7:15, fatigue call 7:30. The fatigue call is for the members of the guard who were re-Heved from duty the day previous. Their duties are to thoroughly clean the grounds about the fort and to do whatever other work the Provost Sergeant may find for them to do.

The detail works until 11:45, when it stops for dinner, reports again at 1 o'clock, and is relieved at 5 o'clock.

The guard is mounted at 8:15, the same hour as at Camp Black. The detail at present is very heavy from our battalion, consisting of one corporal and eight or nine privates from each company and two sergeants from the battalion.

The large guard is for the purpose of instruction. The men are not challenged until after dark, and when they are advanced and recognized they are passed through the lines without further question until taps, which sound at 11 o'clock instead of 10 as at Camp Black.

The first call for drill is at 8:45 and the recall is at 111. We have had no drills, however, since our arrival, the time being devoted to getting our camp in shape.

Officers' call sounds at 11:45, First Sergeant's, 12; dinner, 12:10; supper, 6:15; evening parade, 7:15; tattoo, 9; eall to quarters, 10:45; taps, 11 o'clock.

Col. Stackpole is anxious to have the camp in perfect order at as early a moment as possible. He therefore issued orders that none of the men shall be excused during the day time for the present, but that every man must turn in and do his share.

Our carpenters are busy laying pine floors in every tent and it is understood that mattresses are to be issued. This will be far ahead of "Black Camp." Wooden kitchens are to be erected and Surgeon Major Davis is busy with a corps of workmen looking after the sanitary condition of the camp.

Water pipes have been laid to our camp ground which is known at the fort as the outpost. The men of this battalion will be called upon to dig the trenches for the pipe, but it will only take a short time. The water pipes will be laid to the foot of each street, convenient to the kitchens.

The weather bas been extremely hot for the past three days, but a fine breeze from the ocean and bay has made it very comfortable. The view from Fort Hamilton surpasses that from almost any other point along the coast. At night it is particularly fine, owing to the varicolored lights from Coney Island, Sea Gate, Bath Beach and South Beach on Staten Island. Search lights from Sandy Hook, Coney Island, Fort Wadsworth and Fort Hamilton are at work all night, and last night a very pretty sight was witnessed when a belated Atlantic liner was compelled to cast anchor by one of the mosquito fleet, which patrols the bay. All of the search lights were thrown upon the vessel at once and a most brilliant spectacle was presented-The light upon the versel was so bright that the forms of the sailors pacing the decks were plainly discernable.

Pain's fireworks at Manhattan Beach, (the blowing up of the Maine.) can also he plainly seen from the fort.

After six weeks we have had two pay days in succession. Yesterday the State of New York paid us its share of our first eighteen days' work at Camp Black and to-day the U.S. paymaster paid us for our eleven days service for the month of May. A balance varying from \$10 to \$13 is due the men from Uncle | ing on special train leaving Jersey City Sam and there is no telling when we will at 8 p. m. get that. The men were extremely pleased to receive anything at all, and will be satisfied until they are "broke"

We held our first evening parade, last night, and were closely watched by the regulars. The men presented a very fair appearance considering the rough usage to which their uniforms have been subjected during the past six weeks. Their marching was excellent and many com-

pliments were heard. The regulars have met us more than half way and a number of friendships have sprung up among the men of the different branches of the service. The fort is garrisoned by two companies of the Fifth Artillery, H and I. A number of signal corps men are here and an excellent band of twenty pieces is attached

to the post. Civilians visiting the post are directed by the metries at the gate to the post headquarters where, if they can prove their identity, they have no difficulty in secreting a pass to the outpost. Several Middletowners have visited us, the first

being the mother and elater of Private Murray Beakee.

had a night off, last night. After dress parade they were told that they might go out of the fort, but that every man must be in his quarters at 10.45. All obeyed the order except three, who got lost in Brooklyn and came in an hour late. They got on a wrong car and were carried several miles out of the way.

Private King has been detailed as clerk at headquarters, and Private Blake to assist the post baker. The Government has issued flour, but as the facilities for baking are "nil" we have been unable to make fresh bread. Yesterday all our flour was taken to the bakery and to-day we have a plentiful

E. E. Wilgus, manager of the Tiona Oil Company, tendered an Erie State mileage book for passage between Deposit and Callicoon Depot, a few days ago. The road for part of the distance runs through Pennsylvania and the conductor refused to accept the mileage tickets and Mr. Wilgus allowed himself to be put off the train at Hale's Eddy in order to test the right of the company to refuse to accept mileage tickets for transportation between two points in New York State, his contention being that the looping of the road into Pennsylvania makes no difference.

The Epworth League's Successful Entertainment-Children's Day Exercises Postponed.

Correspondence ARGUS AND MERCURY.

-The entertainment under the auspices of the Epworth League beld in the M. E. Church, last Friday evening, was a success in every particular. The solo entitled "Flight of Ages," by Miss Susie Armstrong was well rendered. Clarence L. Hulse. Hattie A. Hulse and Maude Sharpe played several selections on mandolin, autoharp and banjo in fine style. The recitation given by Hattie Hulse received great applause, calling out an encore to which she cheerfully responded. Altogether it was thought to be the greatest treat Ridgebury has enjoyed for some time.

-The annual strawberry and ice cream festival of the M. E. Church will be held on the church lawn, Friday evening, June 24th. If stormy the next evening.

-On account of the severe storm on Sunday evening, the Children's Day exercises in the M. E. Church were postponed until Sunday evening, June 26th.

ONLY A FEW BASS CAUGHT.

Very few Pick Taken on the Opening Day-A Fow Lucky Fishermen.

Wednesday's base fishing was indifferently successful. A few fishermen who spent the entire day at the lakes returned with two or three fish. The exceptions to the rule were August Piuff, who caught five at the upper lake and Virgil McMullen, who caught eight at Monhagen Lake. These fish were particularly nice, however, averaging a pound and a quarter each.

Shorty" Kauffler captured one which weighed two pounds at Highland Lake. and Thos. Perry caught two pounders at the lower gate house in filteen minutes. Wheeler H. Davenport and Wesley Decker, two cracks, were put off with two and one respectively. Theo. Frank and son, George, went to

Johnson, Thursday afternoon, and the former landed two fine base, one a twopounder, and a small trout, while George captured fourteen frog's anddles.

John G. Wilkin fished in the upper lake at early morning and had no trouble in securing three bass, one and three-quarters, one and one-half and one pounds.

DELHI'S BROKEN BANK.

Its Palture Due to Excessive Loans to the Crawford Wagon Works.

The failure of the Delaware National Bank, of Delhi, although precipitated by the refusal of the Chase National Bank, of New York, to honor its drafts, was due to excessive loans to G. W. and H. D. Crawford, wagon manufacturers.

Their indebtedness to the bank is nearly \$175,000. Much of this indebtedness is of long standing, and although some of it is secured by good endorsements, bank examiners have often condemned the management for allowing such large

The Crawfords have given a chattle mortgage for \$190,000 on their plant to secure the debt and effort is being made to turn the wagon works, which are doing a large business, into a stock company. It is proposed to issue enough preferred stock to pay off the debt to the bank. If this can be done the bank will be saved and Delhi's most important industry continued.

The war has certainly helped Mr. Dingley out of a bad hole. The enormous expenditures on account of the army and navy have caused every one to lose sight of the deficit which his tariff produced, and its failure to restore business pros_ perity as promised can be explained by by the war's disturbance of business conditions. Certainly Mr. Dingley has no reason to hate the Spaniards.

The first test of the Cubans as allies in the field is more than satisfactory. In the attack made on the Spaniards, who have been firing from the bushes on our marines at Caimenara, they proved themselves good fighters,-eager to lead in the attack and willing to bear the brunt of battle. If all of Gomez's men are as good soldiers as those who fought at Crest Heights, Tuesday morning, they will prove of invaluable assistance to the army of invasion.

Gov. Black woke up, yesterday. He ordered Tillinghast and his Paymaster General before him and told them that "excuses will not do. The people will not stand further delay in paying our soldiers. Correct the pay rolls in the field if further corrections are needed, but pay the men at once." Tillinghast promised to "get a move or" and announces that accredited officers will start for the camps at once and that all New York's soldiers will be paid this week,

The Berlin press, evidently inspired from official sources, is unanimous in asserting that the German fleet has been ordered to Manila to protect German interests and to prevent the Philippines coming into the possession of any European power. More faith would be placed in this declaration of a pacific purpose if the German Emperor were less erratic and less aggressive and if the art of lying were not the most highly cultivated branch of European diplomacy,

The wisdom of offering the war loan directly to the people is shown by the prompt response which is being made to the call for subscriptions. The applications for bonds already received show that it will be a genuine popular loan and that it will be discributed among small investors in all parts of the country Two syndicates have offered to take all or any part of the issue, but it nows ϵ ms likely that there will be no chance for Now York Droduco Market them to duplicate the big profits made in handling other bond issues.

Lieut. Hobson's reward for his heroism in sinking the Mercimae will be an ad vance of the numbers, which raises him to the grade of naval constructor with the relative rank of full lieutenant and puts him where, two years hence, he will be promoted to the relative rank of commander, which, under ordinary conditions, he could not have obtained until 1922. His greatest reward will be however, in the fact that in 1904 he will become the senior officer in the mayul construction corps, a place which he will hold until his retirement in 1932.

The first test of a dynamite cruiser in actual warfare was made, Monday night, at Santiago, when the Vesuvius steamed close in shore and discharged her three pneumatic guns at a Spanish fort. Dispatches do not agree as to the exact extent of damage done, but the charges of gun cotton were fired with safety and exploded with terrific force when they struck the earth. The test seems to have established the practical value of the Vesuvius in actual warfare and the possibility of using high explosives in naval battles and for the demolition of fortifi-

Mrs. Melen King Mowell, Mrs. Helen King Howell, wife of Josiah A. Howell, died at 3:30 o'clock, Wednesday afternoon, at her home, 48 East avenue, after a long illness. The cause

was prostrated May 1st. Mrs. Howell was the daughter of Mr. and Mrs. King, formerly of this city, now of Council Bluffs, Ia., who were with her when she died, having been summoned here several days ago when all hope of her recovery was abandoned. She was born near this city Sept. 28, 1853, and all her life was spent here. She was educated at Wallkill Academy and by a wide range of useful reading and the study of branches in which she was interested so added to her stock of knowledge that she was a woman of rare and unueval culture.

She was married to Mr. Howell May 19th, 1881. Two children survive her. Laura, aged eleven, and Mary Anna, aged nine years. A brother, John J. King, of West Point, Neb., also survives

Mrs. Howell was a member of the First Presbyterian Church and was deeply interested in church matters, taking an active part in church work so far as her health permitted. She was domestic in ber tastes and a most devoted mother, the great aim of her life being to so rear her daughters as to fit them for useful womanhood. She will be deeply mourned by a large circle of friends who knew her worth.

The funeral will be held at 2 o'clock, Saturday afternoon, from her late resi-

Another Walt Against the Eric-Goorge C. Budson Wants \$20,000 for a Toot

GOSHEN, June 16 .- At 5 o'clock, Wednesday afternoon, the work of securing a jury in the case of George C. Hudson against the Erie Railway Co. was begun. John M. Gardner for plaintiff, Henry Bacon for defendant. Suit is brought to rec ver \$20,000 for the loss of a foot which was run over by the carein July, 1897, at Monroe. Hudson was attempting to cross the tracks at the crossing in Monroe in front of a west bound freight train and ran into the engine of express train No. 2 going east, and which does not stop at Monroe. The latter train was running very fast and the wonder is that the young man

BELL DIDN'T RING.

Effect of the Omission on the Horses in the King Street Engine House.

The noon bell failed to ring, to-day, and a crowd at the King street truck house, which gathers each day to see the horses come out, was disappointed. The horses, who have the time of ringing down to a minute, were even more nervous than the spectators, and when two minutes past twelve showed by several watches the gong was touched and the horses were allowed to run to their places, after which they are dismissed for

A Brick Fort and Earthworks at Cuantanama Demolished.

GUANTANAMO BAY, June 15, via Kingston, June 16.—The brick fort and earthworks at the end of the railroad leading to the city of Guantanamo were demolished, to-day, by the bombardment of the Texas, Marblehead and Suwanee.

Fire opened at 2 p. m., and the bombardment lasted an hour and thirty minutes. When the Spaniards fled from the fort they were shelled by the St. Paul and driven into the bushes. The Spaniards fired only five shots, which

After the ships stood out into the harbor the Spaniards in the bush fired on the Marblehead's launch, which replied vigorously. The Suwanee then turned back and shelled the bushes, driving the Spaniards inland.

SPANISH IN DISTRESS AT MANILA

LONDON, June 16-A Madrid dispatch says the Minister of War received a cable-Manila, dated June 8th, which speaks of the dire straits to which the insurgents have reduced him. He has been compelled to double strengthen his defense line and increase his garrisons and blockhouses. Trenches have been dug wherever possible for close quarters fighting. He is unable to communicate with the rest of the island and has heard nothing. General Mora is also within the walled city prepared to make a last stand.

The Body of Patrick Wonngham Mecovered, This Norming-Seen Last Night, but sank Before It Could Be Reached.

The body of Patrick Monaghan, who was drowned in the Wallkill, near Denton, Tuesday afternoon, was recovered at 5 o'clock, this morning, at a point about a quarter of a mile below where the drowning occurred.

The searchers worked all day, yesterday, but without success. Twenty-four dynamite cartridges were exploded in the stream,-in the whirlpool below the bridge and between there and the point in which the young man was bathing when he lost his life. It is probable that the explosion of one of these cartridges loosened the body for just at dusk, last evening, it was seen by several persons to come to the surface a short distance below where the unfortunate young man sank for the last time. Before any of those on shore could reach the body it sank, and owing to the darkness the search had to be abandoned for the night. Wires were, however, stretched across the stream in the shallow water morning the body was discovered lying close to the shore, a short distance below the bridge, and it was at once pulled

to the bank. The body will be taken to Port Jervis. Saturday, on the Erie train at 10:36 and the uneral, with requiem high mass, will be held in St. Mary's Church, that village, at 11 o'clock.

SELECT NURSES. Lofty Mission Intrusted to Dr. Anita Newcomb McGee.

The Dorothea Dix of the Spanish-American War-Some of the Quali-Scations Which the Applicants Must Possess.

Fort the first time in the history of the United States women are being enlisted in the military serv-Dr. Anita Newcomb McGee, a patriotic Washington woman, has just been charged with the selection of all of the war nurses for the government during its present conflict. She is the Dorothea Dix of the Spanish-American war. The surgeons general of the army and navy regard her office as a branch bureau of their departments, though in reality it has no official connection with the government, except in a volunteer capacity. Although it was positively announced

at the beginning of the war that neither the army nor the navy would enlist any women nurses for war service, the plans, says the New York Herald, have just been changed, and Dr. McGee is fast supplying women to take care of our brave boys in the hospitals at Key West, Atlanta and the hospital ship lately fitted out at New York. There were women nurses in the late war, but they were not enlisted in the military service, being paid from the unofficial funds of the sanitary commission. They received but \$12 a month in reward for their tender services, whereas those who will nurse the wounded of the present war will get the full nurse's pay of \$30 a month.

Dr. McGee impresses one as being the ideal woman to rank at the head of the war's "angels of mercy." She is young and charming, possessing unusual magnetism, vivacity and gift of language. Moreover, she has the blood of patriots coursing in her veins, being able to boast of three revolutionary ancestors, the best known of whom, perhaps, was Gen. John Bull, who defended Philadelphia during our struggle for liberty.

DR ANITA NEWCOMB M'GDE (Charged with the Selection of All War Nurses.)

She has pursued special courses of study abroad at Cambridge, the University of Geneva and elsewhere on the

Returning to this country, she equipped herself for the sciences, and studied medicine at Columbia and Johns Hopkins. She is the daughter of Prof. Simon Newcomb, the great astronomer, who has been more honored abroad than any other of our American scientists, and is the wife of Prof. W. J. McGee, the well-known ethnologist and geologist. She is one of the vice presidents general of the Daughters of the American Revolution, having been previously elected surgeon-general and ibrarian-general of that society.

Only surgical nurses are being called for, since women trained in the care of general diseases would have practically nothing to do in wards filled with mer margled by shot and shell. Although during the last war Mies Dix, who performed the duties now conferred upon Dr. McGee, refused to appoint women who were prepossessing in appearance. no such regulation has been made for this war, and our brave boys may hope to be insplied to strength by woman's comeliness as well as healed by her tender skill,

Great care is being taken, however, to select only women of the very highest moral character, and to insure this individual members of the Daughters of the American Revolution are cooperating in all of the states.

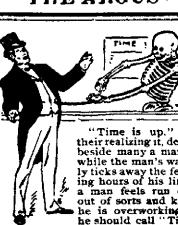

These war nurses will be uniformed in white dresses, caps and aprons. Each will wear a badge in the form of a red cross of enamel, surrounded by a circle of blue enamel. Upon the cross will be inscribed "Hospital Corps," and along the blue circle, "Daughters of the American Revolution." Upon each apron will be neatly stencilled the wheel insignia of the Daughters of the American Revo-

No women nurses will be sent to Cuba. If any are delegated to field hospitals they will do service only in this country. Of course, none will be permitted aboard any of the naval vessels, since the gentler sex are forbidden quarters on all ships in action.

Twenty-five nurses will be attached to each regiment in the field, and if all of these nurses are to be graduates of training schools a great many of them must be women. Many of the women who have already volunteered are doctors of medicine willing to perform any duties, and some are sisters of charity.

Our War with Mexico.

The whole number of men in the war with Mexico was 101,282, including regulars and volunteers. The war lasted •bout two years. Some pretty lively fights were made, notably Resaca de la Palma, Buena Vista and the assaults of Chepultapec and other outworks of the Mexican capital. Yet the casualties were comparatively trifling. Killed in battle, 1,049; died of wounds, 805; total, 1,557. Lem by about one hundred than the federal loss at the battle of Chickamauga.

"Time is up." Without their realizing it, death stands beside many a man, waiting while the man's watch briskly ticks away the few remaining hours of his life. When a man feels run down and out of sorts and knows that he is overworking himself, he should call "Time" him-

self. His life is more precious both to himself and his family than the few dollars he will gain by sticking to his work or his business. A few days' rest and a little right treatment, and he will be robust and ready for a fresh plunge into work.

When a man is run-down, the best medicine in the world for him is Dr. Pierce's Golden Medical Discovery. It is the great appetite - maker. It will make a man "hungry as a wolf" and it will attend to it

that the life-giving elements of what he eats are assimilated into the blood and carried are assimilated into the blood and carried to all parts of the body, to build up new and healthy tissue. It makes firm flesh and strong muscles. It builds up the flesh to a healthy standard, but does not make fat people more corpulent. It tones the nerves and invigorates the liver. An honest dealer won't offer you an inferior substitute for a little extra profit.

"Allow me to express my gratitude to you for the benefit I have received from your wonderful Dr. Pierce's Common Sense Medical Adviser," writes Miss Rachel A. Jones, of I homasville, Raukin Co., Miss. "I must say that it is worth more than its weight in gold. I have gained more information in perusal of a few pages than twice the \$1.50 which you formerly asked would be worth to me. You are doing a good and grand work. I do not see how you give such a volume away upon receipt of only 21 one-cent stamps, to cover cost of mailing." For the above book address the author. Dr. R. V. Pierce, Buffalo, N. Y. For French cloth binding send 10 cents extra, thirty-one cents in all.

Constipation kills energy. Dr. Pierce's Pleasant Pellets are a safe, sure, speedy and permanent cure for constipation. One "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. Unscrupu-lous druggists sometimes offer substitutes claiming that they are "just as good."

THE PRESS CENSOR.

He Suppresses All News Not Agreeable to the Government.

Gen. Adolphus W. Greeley, Chief Signal Officer of the Army, last the Head of This New-Fangled Suppression Bureau.

The trail of the press censor is now over everything. Never did remorke less editor with deadly blue penent slaughter beautiful "copy" as does Uncle Sam's censors, who are editors in the true and root meaning of the word Newspapers which for 35 years have not known what it means to be interfered with are now having a luminous object lesson taught them, and for oncethe special correspondent realizes how small the individual can feel when thrown against the mass of the nation This so-called censorship, says the

Chicago Times-Herald, shows what truly sovereign power means. And the best of it is that the people indorse the government fully. They may miss a little of their daily information, but they are perfectly willing to do without it rather than share it equally with the enemy. As it is impossible to get all the newspapers to agree on matter for publication the government has taken the affair in its own bands, and the newspapers get only what the government permits them to get, Gen. Adolphus W. Greely is the head

ensor. Under him are numerous army and navy officers, who, to the obrrespondents, know nothing, and who read every line of news that goes out from important points. Key West, New York and Tampa are under the "censorship." and of course so is Washington. The elegraph is in control of the government. No information is allowed to pass, press or uo press, that is considared at all useful to the enemy. Not only do the censors cut out parts of dispatches, or throw the dispatches way wholly, but they sometimes inject misinformation bodily into messages that are passed. These cooked up telegrams are sent to the newspapers with the correspondents' signatures, and the editors receiving them

GEN. A. W. GREELY. (Chief Signal Officer United States Army.) to not know what is the censor's and what is the correspondent's work. Dispatches are received and paid for by the newspapers as news and published is news. The correspondent doesn't snow what his paper gets and the newspaper doesn't know what the correspondent sends. Uncle Sam is the only esponsible party in the matter, and the attuation is found in me lurther fact that in this regard Uncle Sam is a totally irresponsible party, if there ever was one.

These efforts of the authorities to nislead the wily Spaniard, or at least o give him no information about the mans of this country, are being aided and abetted by patriotic newspapers ..d correspondents. The latter sends long every item tht "leaks" out, but is all these items are scrupulously used by the censor, it may be taken for granted that what thus percolates to the public is not considered very important information.

At Key West and Tampa the censorship over telegrams is especially rigid. The officer in charge of the telegraph ofice at Tampa is Lieut. Miley, an aide of Gen. Shafter, and all dispatches must be given to him. Correspondents who are caught smuggling news will be packed off home, if not otherwise punshed, and for the first time in their lives young men representing great daily newspapers find a strong wall beaween themselves and their "managing editors" at home. The censorship is particularly hard on the correspondents of the big London dailies, who have been acting, unwittingly, as couriers for the government at Madrid. They were delighted with the freedom of the American news system in the early days of the eumpaign, but now their messages are turned inside out, pruned, harged, and labored with, when not brown away in their entirety. Correspondents in Tampa are forbidden to send out the movements of officers and the arrivals of volunteer troops, and it may be that the American army will be on Cuban soil before the American publie learns the fact. Gen. Greely, who is the bogy man of

the correspondents and the censor-inchief of the news dispatches, has been in the army since the beginning of the civil wat. At that time he enlisted as a private and had risen to the rank of capain before 1865. At the close of the war he was transferred to the regular army and in 1868 he entered the signal service. His fame was made in the celebrated Greely expedition to the arctics. The story of that expedition is part of the world's history. Gen. Greely has been honored by foreign scientific societies in Europe and his works are translated into many languages.

HYMENEAL.

Nault-Bowler. The home of ex-Alderman A. M. Bowler

on Monhagen avenue was prettily decorated with flags, palms, flowers, etc., and a hundred and fifty friends were present, Wednesday evening, when his daughter, Emma Louise, was united in marriage with James F. Nault, of Brooklyn. Rector D. J. Evans officiated and the ceremony was performed at 7:30.

The wedding was a very pretty affair. The bridal party entered the parfor through a lane of ribbons held by Miss Edna Maddec, of this city, Miss Anna Isles, of Yonkers, Miss Isabel Edie and Miss Jennie E. Brower, of Union Course, L. I.

The bride was very attractive in a gown of white organdie, over silk, with lace and white satin trimming. Her bridesmaid was Miss Grace Kortright, of this city, who wore white organdie. The best man was James Edie, of Union Course, a cousin of the bride, and the ushers were W. J. Nault, brother of the groom, and Alfred J. Edie, of Union Course.

After the ceremony supper was served 'by Hasbrouck, and the couple left for New York on the Wells-Fargo Express. They were given a salute of torpedoes. They will go to Niagara Falls and Canada before returning, when they will occupy a home in Brooklyn.

The groom is a gold pen maker with Collins & Co., of John street, New York, where he is highly esteemed. He is to be congratulated upon his choice of a bride. Among the guests at the wedding

Mr. and Mrs. Wm. Fuchs, Wm. Nault, Aime Nault, Miss Julia Van-Sicklen, Brooklyn, N. Y.; Mr. and Mrs. James Edie, Jas Edie, Jr., Arthur Edie, Alfred Edie, Miss Belle Edie, Miss Jennie Brower, Union Course, L. I.; Mr. and Mrs. P. L. Buchanan, Great Notch, N. J.; Mr. and Mrs. Jas. Alexander, Miss Kathryne E. Morrell, New York; W. H. Benjamin, Miss Annie Iles, Miss Susan Iles, Mrs. G. B. Skinner, Yonkers; Mr. and Mrs. S. A. Kaufman, Mount Hope, N. Y.; Mrs. Geo. W. Carpenter, Burnside, N. Y.

A GREAT ARMY OF BUGS.

Billions of Them Invaded Port Jervis, Tuesday Evening. From the Port Jervis Gazette.

Rarely in the memory of our bug editor has our town had such a visitation of little dusty colored "bugs" as occurred, Tuesday evening. At about 8 o'clock several billions of them suddenly appeared on upper Front street and nearly drove the clerks from the stores. The advance guards thickly covered the pavements and windows and several billion reserves moved up and captured Pike street. J. M. Dewitt was obliged to close his clothing store to keep the things out. Wednesday not a single "bug" remmined, as they left as suddenly as they

The song Recital by Mrs. St. John and

The programme of the song recital to be given by Mrs. St. John and her pupils at the Second Presbyterian Church on Tuesday evening, June 21, includes a number of beautiful choruses and quartettes rendered by the pupils, with vocal and instrumental music. Mrs. St. John 🖜 ill sing and she and R. Brewster Beattie are to give a duet, accompanied by W. J. Stevens on the organ. Miss Lallah St. John, who has been studying in New York under Carlo Hozelbrink, will play and a rate treat is promised as Miss St. John is aiready quite a remarkable at-

Bergeant Nickinson's Graphic Picture of Lite at Port Mamilton

Sergeant Nickinson's letter, published in another column, gives a very graphic picture of the life of the members of the 24th at Fort Hamilton. Every person who reads it will know just how the the time of the soldiers is occupied, and will understand the very varied nature of the duties they are called upon to perform and the opportunities for enjoyment that the post affords. The letter is a model of its kinds and hows that in acquir ing the art of war Sergeant Nickinson has not lost the art of newspaper writing.

MANY LETTERS

Are Received From People Cured by Favorite Remedy.

It is an everyday occurrence for men and women to write and say that Dr. David Kennedy's Favorite Rem-edy has cured them after the best physicians have made utter failures. The most remarkable

nary Diseases, and Constipa-tion. Many people say they have been cured of pain in the small of the back, of fre-quent desire to urinate, of pain in passing wat

er. Others say that their urine no longer steins linen, and that there is no sediment or cloudy condition at the bottom of the vessel after their urine has stood 24 hours. Still other sufferers will be glad to know that this great medicine can be had at druggists

for \$1 a bottle. One bottle will cure ordinary cases, while in severe cases it is sometimes necessary to take more.

SAMPLE BOTTLE FREE.—If you wish to test Favorite Remedy before buying it, send your full postoffice address to the Dr. David Kennedy Corporation, Rondout, N. Y., and mention this paper. We will then mail you a sample bottle free, as well as circulars giving full directions for its use. Every reader can depend on the genuineness of this liberal offer, and all who suffer from any of the diseases mentioned above, especially those whose troubles are considered chronic, should take advantage of it at once.
